NEUROSCIENCE AND BEHAVIORAL PHYSIOLOGY
Volume 27, Numbers 1-6, 1997

Engl./Russ.

Volume 27, Number 1, January-February, 1997

Focal Reorganization of the Synaptic Pool of the Molecular Layer of the Cerebellum during Ischemia - V. V. Semchenko, E. D. Sergeeva, and S. S. Stepanov 1
Long-Term Changes in the Efficiency of Excitation and Inhibitory Connections in Neuronal Micronetworks of the Motor Cortex Induced by Tetanization of the Thalamic Nuclei and the Sensory Cortex - I. G. Sil'kis 6
Perceptual Brightness Space in the Carp (*Cyprinus carpio* L.) - D. V. Evtikhin, A. V. Latanov, and E. N. Sokolov 17
Delay in the Development of Auditory Sensitivity in Nestlings and Reorganization of Feeding Behavior - L. I. Aleksandrov 27
Interactions Between Homogeneous Conditioned Motor Reflexes during Conditioned Reflex Switching: Transfer of Learning and Interference - N. O. Timofeeva, N. Yu. Ivlieva, I. I. Semikopnaya, and A. V. Naryshkin 30
Temporospatial Organization of Membrane-Synaptic Modifications and Topograms of Slow Oscillations in Cortical Potentials during Learning - R. G. Kozhedub and I. N. Knipst 38
Na^+, K^+-Atpase Activity in Neurons and Glial Cells of the Olfactory Cortex of the Rat Brain During the Development of Long-Term Potentiation - T. S. Glushchenko and N. L. Izvarina 49
Morphochemical Features of Sensorimotor Cortex and Neostriatum Neurons in Rats with Different Levels of Alcohol Preference - L. M. Gershtein, K. A. Nikol'skaya, and A. V. Savonenko 53
Striato-Nigro-Thalamic Mechanisms in the Organization of Behavior - N. F. Suvorov, N. L. Voilokova, A. I. Gorbachevskaya, and A. V. Mikhailov 59
Model of the Function of the Neostriatum and Its Neuronal Activity during Behavior in Monkeys - B. F. Tolkunov, A. A. Orlov, and S. V. Afanas'ev 68
Role of the Cholinergic System of the Neostriatum in Regulating Several Forms of Defensive Behavior - K. B. Shapovalova, I. A. Zhuravin, E. V. Pominova, and T. A. Dyubkacheva 75
Pre-Movement Activity of Neurons in the Parietal Associative Cortex of the Cat During Different Types of Voluntary Movement - T. V. Khitrova-Orlova, V. G. Sidyakin, A. M. Kulichenko, and V. B. Pavlenko 82
Effect of the Orbital Cortex on the Neuronal Activity of the Tegmentum of the Midbrain during a Feeding Reflex in Cats - Yu. M. Dryagin 87
Interaction of the Hypothalamo-Hypophyseal-Adrenal and Peptidergic Systems of the Hypothalamus in Animals with Experimental Diabetes Mellitus - Yu. M. Kolesnik, A. V. Abramov, and O. V. Mel'nikova 92

Volume 27, Number 2, March-April, 1997

Appearance of Functional Connections between Neurons Resulting from Changes in the Frequency of Their Spike Activity during the Performance by Animals of Conditioned-Reflex Food-Procuring Responses - A. V. Bogdanov and A. G. Galashina 97
Vector Coding and Neuronal Maps - E. N. Sokolov 105

Similarity of the Effects of Training and Application of Serotonin on the Electrical Activity of Live Hippocampal Slices from Rats - A. A. Folomkina and I. V. Kudryashova 111
Effect of Stimulation of the Medial Geniculate Body on the Motor Polarization Dominant in Rabbits - E. V. Rusinova 117
Interactions of Rabbit Neocortical Neurons during Natural Food Motivation - I. V. Pavlova 124
Molecular Basis of the Activity of the Dopamine Synapse in the Mechanisms of Learning and Amnesia - E. K. Podgornaya, O. V. Kalkina, R. Yu. Il'yuchenok, and O. V. Polyakov 131
Features of the Coordinated Activity Functionally Identified Neurons in the Hypothalamus in Different Motivation-Emotional States - R. G. Kozhedub, M. I. Zaichenko, Yu. V. Raigorodskii, V. D. Pavlik, L. P. Yakupova, and N. G. Mikhailova 137
Biogenic Amine Content in the Brains of Rats with Different Levels of Resistance to Emotional Stress - A. V. Gorbunova, R. M. Salieva, N. N. Lobanova, I. N. Ionochkina, S. Yu. Petrova, and V. I. Dedov 145
Effect of NMDA on the Activity of Cortical Glutaminergic Structures in Delayed Visual Differentiation in Monkeys - K. N. Dudkin, V. K. Kruchinin, and I. V. Chueva 153
Mechanisms of Binocular Interaction in the Visual Cortex of Rodents - G. G. Bondar' 159
Electrophysiological Characterization of the Functional State of the Brain in Mental Disturbances in Workers Involved in the Clean-Up Following the Chernobyl Atomic Energy Station Accident - O. A. Vyatleva, T. A. Katargina, L. M. Puchinskaya, and M. M. Yurkin 166
Changes in the Auditory Cortex of the Brain in Situations Affecting the Hypothalamus in Clinical States and Experimental Studies - T. I. Shustova, K. G. Tayushev, and A. A. Lantsov 173
Comparative Morphological Study of Homo- and Heterotopic Neural Transplants - V. A. Otellin and E. S. Petrova 178
State of the Cerebral Cortex in Severe Penetrating Gunshot Injuries to the Skull and Brain (experimental studies) - A. P. Novozhilova, E. A. Dyskin, V. D. Isakov, and V. V. Kolkutin 183
Dystrophic and Reparative Changes in Cortical Neurons in the Offspring of Rats with Moderate Prenatal Alcoholism - É. N. Popova 189
Projections of the Amygdaloid Body and Dopaminergic Mesencephalic Formations in the Entopeduncular Nucleus of the Cat Brain - A. I. Gorbachevskaya 194

Volume 27, Number 3, May-June, 1997

Symposium: "Molecular-Cellular and Genetic Mechanisms of Adaptive Behavior" - Symposium Organizing Committee 199
Basic Molecular-Cellular Mechanisms of Adaptive Responses of the Brain - M. O. Samoilov 200
Role of Neurotrophic Factors in Adaptational Processes of the Nervous System - G. N. Akoev and N. I. Chalisova 207
Molecular-Cellular Mechanisms of the Formation of Long-Term Memory in the Edible Snail - V. P. Nikitin and S. A. Kozyrev 212
Conditioned Defensive Reflex in the Edible Snail (Molecular-Genetic Aspects) - L. N. Grinkevich, I. N. Nagibneva, and P. D. Lisachev 216
Number of Correlates of Membrane Metabolism and Long-Term Potentiation in Rat Brain Slices - N. A. Emel'yanov, T. S. Glushchenko, N. L. Izvarina, U. M. Malikov, N. S. Nilova, N. E. Sokolova, and A. V. Tokarev 221

Atropine Inhibits Associative Potentiation in the Hippocampus - M. V. Sokolov and A. M. Kleshchevnikov 225
Endogenous Regulators of Long-Term Potentiation and Depression in Rat Olfactory Cortex Slices - A. A. Mokrushin and A. V. Tokarev 229
Role of the Phosphoinositide Signal System and Methylation of Phosphatidylethanolamine in the Development of Long-Term Post-Tetanic Potentiation in Rats - L. I. Pavlinova, I. A. Gerasimova, and A. A. Mokrushin 234
Intracellular Mechanisms of Glutaminergic and Cholinergic Signal Transduction in the Cerebral Cortex - D. G. Semenov, E. I. Tyul'kova, and M. O. Samoilov 240
Genetic Aspects of the Mechanisms of Learning - V. V. Ponomarenko and N. G. Kamyshev 245
Genetic Approaches to the Study of Memory in Insects - N. G. Lopatina, L. M. Sharagina, and E. G. Chesnokova 250
Autosomal Mutations in *Drosophila* which Reduce Operant Learning Ability - N. G. Kamyshev, E. A. Kamysheva, and G. O. Ivanova 254
Mutational Analysis and Genetic Cloning of the Agnostic Locus, which Regulates Learning Ability in *Drosophila* - A. I. Peresleni, E. V. Savvateeva, I. V. Peresleni, and L. M. Sharagina 258
Williams Syndrome as a Model of Genetically Determined Right-Hemisphere Dominance - N. N. Bogdanov and V. G. Solonichenko 264
Use of Phenylthiocarbamide for Assessing cAMP-Dependent Resistance to Anoxia in Animals - E. A. Bolekhan, D. G. Semenov, I. A. Gerasimova, and M. O. Samoilov 268
Organization of the *Drosophila* Genome in Mutants with Changes in Second Messenger Metabolism and Learning Ability - A. V. Medvedeva, E. V. Tokmacheva, E. V. Savvateeva, and V. S. Kornitskii 272
Neuroendocrine Mechanisms of the Formation of Adaptive Behavior - V. G. Shalyapina, N. É. Ordyan, S. G. Pivina, and V. V. Rakitskaya 275
Interactions Between the Serotoninergic and Noradrenergic Systems of the Brain and Their Role in the Regulation of Animal Behavior - T. P. Semenova and M. K. Tiku 280
Population Profile of Brain Asymmetry in Rats After Intra-Amniotic Administration of Vasopressin - B. I. Klement'ev, L. Yu. Ryzhova, T. V. Ignat'eva, L. A. Konopistseva, and N. A. Chebotar' 283
Neurophysiological Mechanisms of Cortical-Subcortical Interactions in the Organization of Behavior - V. T. Shuvaev, V. I. Shefer, and I. Yu. Kolesnikova 288
Neuron Activity in the Monkey Striatum During Parallel Performance of Actions - B. F. Tolkunov, A. A. Orlov, and S. V. Afanas'ev 297
Synchronization Processes in the Mechanisms of Short-Term Memory in Monkeys: the Involvement of Cholinergic and Glutaminergic Cortical Structures - K. N. Dudkin, V. K. Kruchinin, and I. V. Chueva 303
Dopamine and the Reinforcing System of the Brain - E. S. Petrov and A. A. Lebedev 309
Effects of Microinjection of Scopolamine into the Neostriatum of Rats on Performance of a Food Conditioned Reflex at Different Levels of Fixation - D. L. Tikhonravov, K. B. Shapovalova, and T. A. Dyubkacheva 312
Inhibition by the Pentapeptide YFRKD of Complex Conditioned Reflex Activity During the Ontogenesis of White Rats - N. A. Ryabchikova and G. I. Chipens 319

Volume 27, Number 4, July-August, 1997

The Problem of Gestalt in Neurobiology - E. N. Sokolov 323
Real-Time Distribution of Linked Spike Activity in Cortical Neurons during Learning in the Cat - A. V. Bogdanov, A. G. Galashina, and I. V. Volkov 333

Studies of the Role of the Brain Cholinergic System in the Mechanisms of Dissociative Learning - A. A. Azarashvili 341
Direct Activating Effect of the Lateral Preoptic Region of the Hypothalamus on the Synchronizing System of the Thalamus - N. V. Suntsova and A. A. Burikov 347
Effects of Changes in Dynamic Equilibrium in Microtubule and Microfilament Systems on the Plastic Responses of Neurons - A. S. Ratushnyak, T. A. Zapara, A. A. Zharkikh, and O. A. Ratushnyak 353
Time Organization of Frontal-Motor Cortex Interneuron Interactions in the Cat Neocortex in Conditions of Different Levels of Food Motivation - G. Kh. Merzhanova and É. E. Dolbakyan 360
Changes in the Electrical Characteristics of Command Neurons on Development of a Conditioned Defensive Reflex in the Edible Snail - Kh. L. Gainutdinov, T. Kh. Gainutdinova, and L. Yu. Chekmarev 367
A Systems Process of Reinforcement - K. V. Sudakov 370
Dynamics of High-Frequency (up to 200 Hz) Components of Brain Electrical Activity during Learning Reflect the Functional Mosaicism of the Neocortex - V. N. Dumenko, M. K. Kozlov, and M. A. Kulikov 381
NMDA Receptors and Associative-Type Ultrastructural Synaptic Plasticity in the Rat Neocortex - G. G. Khludova and P. A. Gusev 391
Comparative Neurobiology of Color Vision in Humans and Animals - A. V. Latanov, A. Yu. Leonova, D. V. Evtikhin, and E. N. Sokolov 394
Brain Mechanisms of Emotions - P. V. Simonov 405
Information Synthesis in Key Parts of the Cerebral Cortex as the Basis of Subjective Experience - A. M. Ivanitskii 414
Dynamic Character and Age Dependence of Functional Brain Organization in Attention - N. V. Dubrovinskaya, R. I. Machinskaya, and Yu. V. Kulakovsky 427
Reinforcement Concept in Investigations on Simple Nervous Systems - P. M. Balaban 435
Formation and Realization of Individual Experience - Yu. I. Alexandrov, T. N. Grechenko, V. V. Gavrilov, A. G. Gorkin, D. G. Shevchenko, Yu. V. Grinchenko, I. O. Aleksandrov, N. E. Maksimova, B. N. Bezdenezhnych, and M. V. Bodunov 441
Sensory Information – the Major Factor of Ontogeny - V. V. Raevsky, L. I. Alexandrov, A. D. Vorobyeva, T. B. Golubeva, E. V. Korneeva, I. E. Kudriashov, I. V. Kudriashova, M. L. Pigareva, E. Yu. Sitnikova, and I. S. Stashkevitch 455
Biochemical Correlates of Individual Behavior - N. V. Gulyaeva and M. Yu. Stepanichev 462

Volume 27, Number 5, September-October, 1997

Neuron Theory and New Concepts of Nervous System Structure - A. P. Novozhilova and V. P. Babmindra 471
Neurovascular Relationships in the Human Neocortex - V. E. Okhotin and V. V. Kupriyanov 482
Serotonin-Reactive Neurons in the Neocortex - V. A. Otellin and D. É. Korzhevskii 489
Perforated Synapses in the Neocortex and Their Role in the Reorganization of Interneuron Interactions in the Post-Ischemic Period - V. V. Semchenko and S. S. Stepanov 492
Projections of the Ventral Tegmental Area of the Midbrain, the Substantia Nigra, and the Amygdaloid Body in Different Parts of the Putamen in the Dog - A. I. Gorbachevskaya 496
Ultrastructural Features of Spinal Cord Sensorimotor Synapses in Amphibia - M. V. Motorina 503
Ultrastructure of Mauthner Neurons in the Living Brainstem of the Goldfish - D. A. Moshkov, N. R. Tiras, L. L. Pavlik, and N. F. Mukhtasimova 512

Morphological Differentiation of NIE-115 Mouse Neuroblastoma Cells - M. A. Kostenko, S. N. Myakisheva, and V. I. Popov 516
Neurosecretory Activity and Dynamics of the Lipid Content of CNS Neurons in Gray's Mussel, a Bivalve Mollusk - O. V. Reunova, G. G. Kalinina, and P. A. Motavkin 524
Structural Organization of Receptor Elements and Organs of the Land Mollusk *Pomatia elegans* (Prosobranchia) - O. V. Zaitseva 533
Effect of Nerve Growth Factor on the Regeneration of Fibers in the Rat Sciatic Nerve - O. N. Zhuk and V. N. Kalyunov 541
Wing Muscle Motoneuron Function in *Drosophila* with Mutations in the Kynurenine Pathway of Tryptophan Metabolism - V. B. Smirnov 545
Glutamate Levels in the Nucleus Accumbens in a Conditioned Emotional Response - N. B. Saul'skaya and C. A. Marsden 548
Cortical Mechanisms of Programmed Brain Activity in the Organization of Behavioral Acts in Cats - G. A. Kulikov, L. V. Cherenkova, and S. N. Perfil'ev 552
Effect of a Polysaccharide Fraction of Ginseng Root on Learning and Memory in Rats (Using an Active Escape Response as an Example) - I. I. Lyubimov, V. M. Borzenkov, N. E. Chepurnova, and S. A. Chepurnov 555
Features of Motor Cortex Neuron Responses to Specific Stimulation in Old Rabbits - Yu. S. Mednikova, F. V. Kopytova, and T. N. Dish 559
Role of the Head of the Caudate Nucleus and the Orbital Cortex in Neuronal Activity of the Tegmentum of the Midbrain in a Food Reflex in Cats - Yu. M. Dryagin 562
Involvement of Structures of the Striato-Thalamo-Cortical System in an Operant Defensive Conditioned Reflex - A. V. Mikhailov 566
Relationship between Learning Characteristics and the Properties of Visual Objects in Rhesus Macaques - K. N. Dudkin and I. V. Chueva 570
Effect of Generalized Seizures on the Structure of the Sleep-Waking Cycle and the EEG in Rats with an Inherited Predisposition to Audiogenic Convulsions - G. A. Oganesyan and S. I. Vataev 578
Neurobiological Basis of Creativity - P. V. Simonov 585
Cholinergic Dependence of a Cortical Neuronal Mechanism that Supports Pavlovian Eyeblink Conditioning - N. Jahed, E. Gruen, and C. D. Woody 592
Time Factors in the Conditioning of Behavioral Responses - K. Zielinski 599
Neural Mechanisms of Autonomic Responses Elicited by Somatic Sensory Stimulation - Akio Sato 610
Role of Subcortical Structures in the Process of Conditioning - N. F. Suvorov 622
Vortrag in St. Petersburg, October, 1994. Pavlov's Dog and Benzer's Fly: the Genetics of Higher Nervous Activity - M. Heisenberg 632
Cerebral Substrates of Pavlovian Conditioning of Discrete Behavioral Responses - Richard F. Thompson 635

Volume 27, Number 6, November-December, 1997

Basis for a Method of Dynamic Proprioceptive Correction in the Restorative Treatment of Patients with Residual-Stage Infantile Cerebral Palsy - K. A. Semenova 639
New Approaches to the Rehabilitation of Patients with Neurological Movement Defects - S. B. Shvarkov, O. S. Davydov, R. A. Kuuz, T. R. Aipova, and A. M. Vein 644
Functional State of Segmental Motoneurons in Wilson-Konovalov Hepatocerebral Dystrophy - A. S. Starikov 648
Corticostriatal Mechanisms of Behavior - N. F. Suvorov, V. T. Shuvaev, N. L. Voilokova, O. G. Chivileva, and V. I. Shefer 653
Comparative Study of the Roles of ACTH and β-Endorphin in Regulating Conditioned Reflex Activity in the Hedgehog - T. N. Sollertinskaya 663

Effect of Veratridine on the Release of Neurotrophic Factors in Nerve Tissue Cultures - G. N. Akoev, N. I. Chalisova, M. I. Lyudyno, D. A. Terent'ev, and A. V. Romanyuk 672
Synaptic Responses of Neurons in the Parietal Associative Cortex of the Cat to Stimulation of the Red Nucleus - E. V. Papoyan and V. V. Fanardzhyan 676
Quantitative Characteristics of Changes in Synaptic Contacts in the Hippocampus in Alzheimer's Disease - A. I. Kiktenko, N. A. Uranova, and D. V. Denisov 681
Afferent Projections of the Body of the Caudate Nucleus in the Cat Brain - O. G. Chivileva and A. I. Gorbachevskaya 683
Spatial Organization of Hypothalamic Neurons Projecting to the "Gastric" Region of the Vagosolitary Complex - E. B. Pluzhnichenko 688
Adrenal Cortex Hormones and the Testicles in Emotional Stress in Rats with a Genetic Predisposition to Cataleptic Responses - V. A. Shul'ga, T. A. Alekhina, and V. G. Kolpakov 692
Antidromal and Synaptic Activation of Neurons of the Associative Parietal Cortex of the Cat Brain Elicited by Spike Activity from the Intrinsic Nuclei of the Pons - E. V. Papoyan 695
Use of Artificial Ion Channels for Quasi-Intracellular Recording of Cerebral Cortex Neuron Activity - M. Yu. Inyushin, V. Yu. Tsytsarev, A. Yu. Ignashchenkova, and D. N. Lenkov 702
Responses of Constantly Firing Motor Units to Afferent Stimulation - I. N. Pleshchinskii, T. V. Babynina, N. L. Alekseeva, V. F. Klimova, and S. G. Perminova 708
Studies of the Mechanism of the Anticonvulsant Effect of Delta-Sleep-Inducing Peptide in Conditions of Increased Oxygen Tension - A. M. Mendzheritskii, A. V. Lysenko, N. I. Uskova, and E. A. Sametskii 714
Effects of the Cholinergic System of the Rat Neostriatum on Learning Active Escape in Normal Animals and in Animals with Lesions to the Intralaminar Thalamic Nuclei - K. B. Shapovalova, E. V. Pominova, and T. A. Dyubkacheva 718
Monoamine Metabolism in the Striatum of the Rat Brain during Drug Infusion into the Nucleus Accumbens - N. B. Saul'skaya 728
Comparative Physiological Features of the Regulatory Effect of Vasopressin on Higher Nervous Activity in an Ascending Series of Mammals - T. N. Sollertinskaya 734
